

# Statistical Reports

The Research Division

Examinations generate large volumes of statistical data (approximately 800,000 candidates sit general qualifications each year in the United Kingdom). The on-going Statistics Reports Series provides statistical summaries of various aspects of the English examination system.

The objective of the series is to provide statistical information, such as trends in pupil uptake and attainment, qualifications choice, subject combinations and subject provision at school. The reports, mainly produced using national-level examination data, are available in both PDF and Excel format on our website:

<http://www.cambridgeassessment.org.uk/our-research/all-published-resources/statistical-reports/>

The most recent additions to this series are:

- *Statistics Report Series No.89: The accuracy of forecast grades for OCR GCSEs in June 2013*
