 - PE/SPORT
 - PHYSICS
 - PSYCHOLOGY
 - RELIGIOUS STUDIES/EDUCATION
 - SOCIOLOGY
 - SPANISH
 - STATISTICS
 - VOCATIONAL STUDIES

NOTE: The Inter-Awarding Body Statistics are the results for all candidates, of all ages, from all centres.

¹ Including both English and English Language.

Introduction

This report presents the entries and results for all GCSE subject categories in England, Northern Ireland and Wales for the years 2004 to 2013 (summer sessions only), broken down by school type. The data is compiled from the Inter-Awarding Body Statistics produced by the Joint Council for Qualifications (JCQ)². Within each subject category there may be different specifications or indeed different qualifications: for instance, the Combined Science category includes Core Science and Additional Science; the Communication Studies category includes Media Studies, Film Studies and Expressive Arts. Where individual subjects are of special interest, these are presented separately: for instance, the Social Science category has been broken down into Psychology and Sociology only and the Languages category into French, German and Spanish only.

The report starts with the entries and results for all subject categories together, followed by each category (or subject) separately. For each, the data are presented in the following order:

- Table and graph of entries by school type
- Tables of the numbers and percentages of candidates achieving each grade or better, by school type
- Graph of the percentage of candidates achieving each grade or better, by school type.

It should be noted that the numbers of candidates achieving each grade or better is not in the Inter-Awarding Body Statistics, but was calculated using the percentages achieving each grade and the total number of entries. These percentages are given to one decimal place only, meaning that the number of candidates will not be entirely accurate.

This is the fourth year in which academy schools have been treated as a separate school type. These are state funded schools that are independent of local authority control, the first of which opened in 2002. Most academies were previously comprehensives, and were categorised as such in the JCQ data, up until they converted. However, until recently, once these schools converted they were categorised as independent schools. Thus they appear in this report, in year prior to 2009, in either the 'comprehensive' or 'independent' categories. From 2009, there is a separate category in the tables and graphs for 'academy' schools. From 2013, this category also includes 'Free' schools.

For some of the subject categorisations the percentage of candidates achieving each grade or better can appear very erratic on the graphs between years for particular school types. This is because of the low numbers of entries for these subjects in these schools.

² See <http://www.jcq.org.uk/examination-results/gcse>. The school type categorisation was taken directly from the electronic versions of the Inter-Awarding Body Statistics provided each year to awarding bodies by the JCQ.
