 - GERMAN
 - HISTORY
 - LAW
 - MATHEMATICS
 - MUSIC
 - PE/SPORT
 - PHYSICS
 - POLITICAL STUDIES
 - PSYCHOLOGY
 - RELIGIOUS STUDIES/EDUCATION
 - SOCIOLOGY
 - SPANISH

NOTE: The Inter-Awarding Body Statistics are the results for all candidates, of all ages, from all centres.

Introduction

This report presents the entries and results for all A-level subject categories for England, Northern Ireland and Wales for the years 2005 to 2014 (summer sessions only). The data is compiled from the Inter-Awarding Body Statistics produced by the Joint Council for Qualifications (JCQ)¹. Within each subject category there may be different specifications or indeed different qualifications. For instance, the Mathematics category includes Mathematics, Pure Mathematics, Further Mathematics and Statistics; the Communication Studies category includes Media Studies and Film Studies. Where individual subjects are of special interest, these are presented separately: for instance, the Social Science category has been broken down into Law, Political Studies, Psychology and Sociology only and the Modern Languages category into French, German and Spanish only.

The report starts with the entries and results for all subject categories together, followed by each category (or subject) separately. For each, the data are presented in the following order:

- Entries, overall and by gender
- Grade distribution (all candidates)
- Grade distribution (male candidates)
- Grade distribution (female candidates)

There are two tables for each of the grade distributions: the cumulative percentage of candidates achieving each grade by year and the cumulative number of candidates achieving each grade by year.

This was the fifth year in which the A* grade has been awarded at A-level. This means that the tables and graphs of the cumulative number and percentage of candidates achieving A* consists of five years of data only.
