EXAMINATIONS RESEARCH

Statistical Reports

The Statistics Team Research Division

The Statistics Reports Series is based on the annual national-level examination databases for pupils in England. The objective of these reports is to provide statistical summaries of the information contained in these, such as pupil attainment, pupil subject uptake and subject provision in schools. Some reports will consider patterns over time, particularly if there has been a relevant change in the system. These reports will be produced at a rate of around two or three a year and are available in .pdf format on the Cambridge Assessment website: http://www.cambridgeassessment.org.uk/ca/Our_Services/Research/Statistical_Reports
